I) CONTROLLO SPAZIO HD

A screenshot of a terminal window titled "kali@kali: ~". The window has a dark background with light-colored text. At the top, there's a menu bar with "File", "Actions", "Edit", "View", and "Help". Below the menu, the terminal prompt shows "(kali㉿kali)-[~]". The user then runs the command "\$ df", which outputs a table of disk usage information:

Filesystem	1K-blocks	Used	Available	Use%	Mounted on
udev	964504	0	964504	0%	/dev
tmpfs	201236	1020	200216	1%	/run
/dev/sda1	60624740	14875056	42637648	26%	/
tmpfs	1006164	0	1006164	0%	/dev/shm
tmpfs	5120	0	5120	0%	/run/lock
tmpfs	201232	116	201116	1%	/run/user/1000

Below the terminal window, the Kali Linux desktop environment is visible, featuring a large watermark of the word "ALINUX" and the slogan "The more you become, the more you are able to hear".
